

The Rabigh CIP management office will assist tenants with the recruitment of staff.

Thousands of Saudi and non-Saudi workers will be employed at Rabigh CIP and PETRO-Rabigh. Saudi nationals working for Rabigh CIP are likely to be from the Jiddah Metropolitan Region, which has a population of five million. Rabigh CIP is located within commuting distance from Jiddah. Non-Saudi workers will be from Asia and Africa and a range of countries, thus resulting in English language communication in the operation.

The Education Zone in KAEC will include a high school, colleges, universities, etc. Training institutes have been set up in some cities. A Human Resources Fund will provide for the training of operators and technicians in selected institutes in Saudi Arabia. A Vocational Training Center in the town of Rabigh is under construction to support the creation of new specialists, which is expected to benefit the tenants of Rabigh CIP.
