

## Where is Rabigh CIP located?

---

Rabigh CIP provides tenants with ideally located production bases for multiple markets including Saudi Arabia, the Gulf countries and the Middle East, Europe and North Africa. It can be reached by air, from King Abdulaziz International Airport in Jiddah, 160 kilometers away or by sea, via the Jiddah Islamic Port, which is located 180 kilometers south of Rabigh CIP. A highway connects Rabigh CIP with both of these locations. Additionally, there is a large-scale new town called King Abdullah Economic City (KAEC) 15 kilometers south of Rabigh CIP, which will include an international port for both cargo and passengers.
